Photo Scanning

Our scanning services allow you to make high quality, archival copies of your prints, slides, and negatives.

"Shoebox Scans": Bring us your shoebox! These high speed scans are designed to digitally preserve your photos beginning at \$1 per scan. Per image scan prices can be as low as 50 cents per scan depending on the number of pictures submitted. The resolution will be good enough to make prints slightly larger than your original photo.
PLEASE ASK FOR SHOEBOX SCANNING GUIDELINES!

"Picture This Scans" are designed to deliver an image that can reproduce an 8x10 print at 300 dpi. at \$3.50 per scan. These are very good quality scans that fulfill the most basic requirements of a scanning order.

"Museum Scans" are the highest resolution for museum quality professional reproductions beginning at \$7.50 scan.
